

Bayou Texar

All you teens:
Keep it clean!

Marissa Coen

KEEPING BAYOU TEXAS HEALTHY

STORMWATER:

Water from rain and irrigation
carries sediment, chemicals
and debris into bayous, bays,
and gulfs.

**To reduce stormwater
runoff and keep it clean:**

1. Minimize paved areas around
your home. Use turf, flagstones & sand.
2. Landscape with swales &
berms to catch & filter stormwater.
3. Clean up after your pet. Animal
waste contributes bacteria to bodies of water.
4. Fasten gutters and roof spouts
to drain onto grass, away from concrete.
